Our
Company

Decades of Experience

In the production and distribution of food canning

Our company was born in Mesagne, few kilometers away from Brindisi, in a territory mainly devoted to agriculture, where its particularly fertile land produces rich fruit alternating cultivations of tomatoes, eggplants, peppers, artichokes and much more.

Here, thanks to the business venture of the partners (who wanted to invest the inherited know-how), the decision was to focus on production and distribution of food canning, building on the experience gained during the decade-long activity of Campana's family in this industry.

Over the years, our mission has always been to be close to the world of professional catering and food service, through a rigorous selection of high quality products and a continuous research aimed at improving the satisfaction of restaurant owners and chefs.

We like to remember every day that we come from a land that preserves and carries an important agri-food culture, keeping in mind that our identity and authentic richness are the results of what our community has passed on to us.

Our products make you breathe the magic of Apulia and of those places where our ancestors lived in perfect harmony with nature, picking its precious fruit with love, mastery and respect.

Quality, Research and Innovation

for foodservice sector

Our daily commitment is meant to offer you only the best: quality, genuinity, freshness are just some of the essential features that our products must have.

All of this is because we want to provide the best typical Apulian products based on taste uniqueness and traditional methods of transformation and preparation.

This is our way to value and promote the excellences that make Apulia a unique region in the world.

Our continuous research constantly aims at innovation proposing new taste experiences, combining different flavors, consistencies and contrasts, exalting preparations of cooks, chefs, and pizza chefs.

A still life photograph featuring several mushrooms. A small white bowl filled with mushrooms sits on a large, round, woven basket made of light-colored, textured material. Several mushrooms are also scattered around the basket on a dark, textured surface. Fresh green herbs are placed in the top left and bottom right corners. A white, wavy-edged shape on the right side of the image contains the text 'Mushrooms Line'.

A close-up photograph of an olive branch with several green olives. The branch is illuminated by warm, golden light, likely from the sun, creating a soft glow and highlighting the texture of the leaves and olives. A large, white, abstract, cloud-like shape is overlaid on the right side of the image, partially obscuring the branch. The background is dark and out of focus, emphasizing the branch and the text.

A hand with red nail polish is pouring a golden-brown dressing from a glass pitcher into a white bowl filled with a colorful salad. The salad contains diced tomatoes, green onions, and other vegetables. In the background, there is a basket of fresh vegetables including red tomatoes, green bell peppers, and green onions, and a loaf of bread. The scene is set on a dark wooden surface with a light-colored wooden plank background.
